## WELCOME MESSAGE

Dear Esteemed Colleagues,

We are thrilled to extend a heartfelt invitation to you for **CARDIONEXT 2025** – an exciting and transformative gathering dedicated to advancing the field of cardiology! It is an honor to welcome you to this prestigious event, where we will explore groundbreaking innovations, research breakthroughs and clinical practices shaping the future of cardiovascular care.

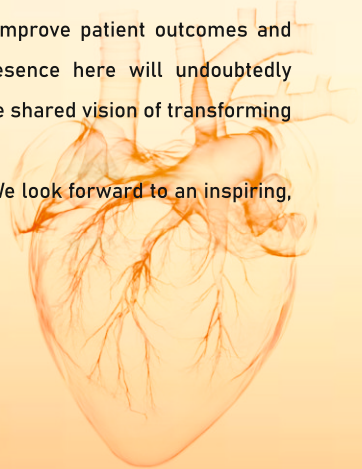

This conference offers an unparalleled opportunity to engage with leading experts, exchange insightful ideas and participate in dynamic, interactive sessions. Together, we will chart new courses for patient care, foster interdisciplinary collaboration, and inspire future breakthroughs.

Our agenda is thoughtfully crafted to encourage meaningful discussions and hands-on learning, providing an enriching platform for all attendees to grow and innovate.

We deeply appreciate your commitment to improve patient outcomes and advancing the field of cardiology. Your presence here will undoubtedly contribute to the success of this event and the shared vision of transforming the future of heart care.

Once again, welcome to **CARDIONEXT 2025**. We look forward to an inspiring, insightful, and impactful experience together.

Warmest Regards,

**Day 1 : 12<sup>th</sup> April 2025 (Saturday)**

**SCIENTIFIC PROGRAMME**

**9.00 AM – 8.00 PM**

ECG Workshop- Basics and Beyond  
Echo workshop- Basics and Beyond  
Chest X-Rays in Paediatric and Adult Cardiology  
Coronary Angiography for Physician's

**Heart failure symposium**

- ★ Redefining Heart failure
- ★ Optimising medical therapy
- ★ Between devil and deep sea-managing renal failure in HF
- ★ Devices that keep the heart better

**CAD symposium**

- ★ When to refer to cardiologist and when not to?????
- ★ From ST segment elevation MI to occlusion MI : The new Paradigm shift in Acute Myocardial Infarction
- ★ Primary PCI vs Rescue PCI diminishing role of Thrombolysis
- ★ Calcium Management

**Arrhythmia symposium**

- ★ Syncope : diagnosis and treatment
- ★ Sudden cardiac death : prevention
- ★ Management of incessant Ventricular tachycardia
- ★ Atrial fibrillation: how to manage acute vs chronic

**Structural heart symposium**

- ★ Valve Revolution from surgery to Transcatheter solutions
- ★ Primordial prevention : non pharma fix for heart disease
- ★ Medicolegal aspect for medicos

**Day 2 : 13<sup>th</sup> April 2025 (Sunday)**

**SCIENTIFIC PROGRAMME**

**8.00 AM to 5.00 PM**

**ECG quiz for Medicine students and physician**

**Audiovisual quiz for DM students**

**Thrills & Chills in Cardiology**

- ★ Myocardial Infarction in young
- ★ The new game changer in town: Metal Less PCI
- ★ Cardio-embolic Stroke

**Bridging specialities symposium**

- ★ Heart failure and diabetes: A deadly duo
- ★ Peripartum cardiomyopathy: unravelling a mysterious condition
- ★ Dual diagnosis : navigating heart failure with Chronic pulmonary disease
- ★ Window concept in Acute Ischemic stroke
- ★ ECMO

**Newer drugs symposium**

- ★ Revolutionising lipid management in CAD: Inclisiran
- ★ Finerenone
- ★ Vericiguat

---

# Udaipur Attractions

Udaipur is known as one of the most enchanting and colorful cities in India. Surrounded by the Aravali Mountains, it is a city of tranquil lakes, sprawling gardens, majestic forts, beautiful palaces, and intricately carved temples. In 1559 A.D. Maharana Udai Singh Ji moved the capital of Mewar from the ancient city of Chittorgarh and founded the city of his dreams, Udaipur. Indulge in the beauty of the City of Lakes while attending the summit.
